

Summer School Infomation Guide

Çukurova University Computer Engineering

Summer School Conditions

Our department does not offer summer schools, but students can take summer schools from other universities.

According to the decision of YÖK, the student can take summer school courses from departments of other universities with a base score equal to or higher than our department's base score in the central exam in the year of registration to our university.

Accordingly, the student;

- 1. Since the base scores of formal and evening education programs are different, the base score of the program in which he/she is registered should be taken into consideration.
- 2. If you come to our department through vertical transfer, your vertical transfer base scores are taken into consideration in your application.
- 3. He/she cannot take courses from departments that do not have a base score on the ÖSYM website in the year he/she enrolls in our university.

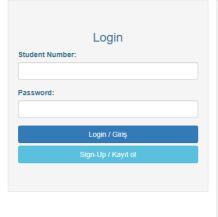

Summer School Conditions

- >A maximum of 3 courses can be taken in summer school.
- The weekly course hours of the course to be taken must be at least the same as the course hours of our relevant department.
- There is no language requirement for courses taken in summer school.
- Department courses that have never been taken before can be taken in summer school.
- In order to attend summer school, students must first apply.
- Applications with wet signatures will not be accepted, applications will be made through the "Summer School System" on ceng.cu.edu.tr.
- The suitability of the course you plan to take will be checked by the summer school commission through this system.

Students of our department who want to take summer school from other universities must first log in to the "ceng.cu.edu.tr" page with their student number and password.

All your applications will be listed under "My Applications", students can delete their applications and apply again until the commission approves or rejects them.

If you apply with incorrect/incomplete information, your application may be rejected. In this case, you must apply again.

- Conce your application is approved, you can register for the summer school course at the other university.
- When you register and start summer school, you must inform us by clicking the "I have registered" button under my applications. Otherwise, it will be assumed that you have not registered for summer school and your grades will not be entered.
- Petition approval/rejection procedures for summer school are held once a week by the summer school commission.

- At the end of summer school, the host university sends your grades via EBYS. When your grades reach us, they will be entered into this system.
- ➤ You can follow your grade entered under My Applications.
- These entered grades will occasionally be converted into a commission report and sent to the student affairs office to be processed into your transcripts.
- ➤ You can visit the 'bmb.cu.edu.tr' page to get the necessary information about the summer school.

For your questions about the system, you can send an e-mail to kkeskin@cu.edu.tr.
